Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences.

Bridge Courses

In the academic year 2023-24, V.S.R. Govt Degree & P.G College, Movva, introduced **Bridge Courses** as an essential part of its student-centered learning framework. These courses were designed to help new students transition smoothly into their chosen academic streams by covering foundational topics that might not have been included in their prior education. Faculty members conducted targeted sessions to strengthen students' basics, allowing them to better grasp advanced concepts in their core subjects. Bridge courses helped students gain confidence and adapt more easily to the demands of higher education. This initiative played a significant role in minimizing academic gaps and fostering a strong start to their college journey.

*Enclosed are sample documentary records
showcasing activities from
various departments.*
