Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences.

Peer Teaching

In the academic year 2023-24, V.S.R. Govt Degree & P.G College, Movva, promoted **Peer teaching** as an effective, student-centered learning method. This approach involved students teaching and explaining concepts to their peers, which reinforced their own understanding while enhancing collaborative learning. Faculty guided students in organizing peer teaching sessions, allowing them to clarify doubts, exchange knowledge, and develop leadership skills. Peer teaching fostered a supportive learning environment, where students felt comfortable discussing challenging topics and learning from each other. This method not only deepened subject comprehension but also boosted students' confidence and communication skills.
