DEPARTMENT OF CHEMISTRY

QUIZ

Activity : **NATIONAL E QUIZ**

Topic : **CHEMISTRY QUIZ**

Resource person : **Prasad Babu**

Date of the programme : **07-10-2020**

Venue : **VSR GDC MOVVA**

No. of students Participated : **373**

Objective of the Programme: The online quiz can help generate interest and curiosity about science among people of all age groups. It can encourage them to delve deeper into scientific concepts and explore the wonders of the scientific world. Conducting an online quiz makes it easily accessible to a wider audience, irrespective of geographical location or physical limitations.

This inclusivity ensures that students from various backgrounds and regions can participate and benefit from the quiz, fostering a sense of unity and cooperation among science enthusiasts

. It can also serve as a medium to involve participants who may not have had a chance to participate in physical events.

I request the esteemed lecturers to forward the quiz to students. The Students will get e certificate.

To Participate in the Quiz, Click on the Registration Link.

Activity :NATIONAL E QUIZ conducted on the occasion of
National Science Day

Topic :CHEMISTRY QUIZ

Resource person :K.R.MANJULA

Date of the programme :28-02-2022

Venue :VSR GDC MOVVA

No. of students Participated :313

Objective of the Programme :The online quiz can help generate interest and curiosity about science among people of all age groups. It can encourage them to delve deeper into scientific concepts and explore the wonders of the scientific world.

To Spread awareness about scientific achievements of Dr.C.V..Raman.
Conducting an online quiz makes it easily accessible to a wider audience, irrespective of geographical location or physical limitations.

This inclusivity ensures that students from various backgrounds and regions can participate and benefit from the quiz, fostering a sense of unity and cooperation among science enthusiasts

. It can also serve as a medium to involve participants who may not have had a chance to participate in physical events.

. Overall, the objective of conducting an online quiz on National Science Day is to celebrate the significance of science, elevate scientific knowledge, and inspire individuals to engage more actively with scientific concepts and discoveries.

To Commemorate the Discovery of Raman Effect V.S.R Government Degree College Movva, is conducting National Level Online quiz on the occasion of National science day on Feb,28th 2022. I request the esteemed lecturers to forward the quiz to students. The Students will get e certificate. To Participate in the Quiz, Click on the Registration Link.

Principal

ABSTRACT OF THE PROGRAMME:National Science Day is observed to commemorate the discovery of the Raman Effect by Sir C. V. Raman. By

organizing an online quiz, we can provide a platform for students to learn and celebrate this important day together. an online quiz on National Science Day can serve as an effective tool to promote science education, celebrate scientific achievements, and engage participants in an interactive and learning-oriented environment.

Activity : E QUIZ

Topic :CHEMISTRY QUIZ

Resource person :K.R.MANJULA

Date of the programme :31-01-2023

Venue :VSR GDC MOVVA

No. of students Participated :22

Objective of the Programme :The online quiz can help generate interest and curiosity about chemistry among all the students.

Quizzes help students identify what they know and what they don't know.

The students then have a better idea of how well they are grasping the material, hopefully motivating them to study more and helping them allocate their study time effectively by focusing on the information that still needs more practice.

To evaluate the knowledge of the participants within academics as well as beyond academics and to make them familiar with the prospects of quizzes and the objectivity of the questions.

V.S.R. GOVERNMENT DEGREE & PG COLLEGE - MOVVA

DEPARTMENT OF COMMERCE

A Report on Quiz programme conducted through Flickers

Activity	: Quiz programme on Commerce Concepts
Topic	: Quiz programme through Plickers
Resource person	: Dr. D.Ch. Appa Rao, Lecturer in Commerce, GDC- Movva
Date of the programme	: 09-10-2020
Venue	: 05
No. of students Attended	42

The objective of the program:

Quizzes are a lot of fun, but they can also be used to help students get better at themselves. They can aid students in discovering more about who they are and what others think of them. Participants compete to properly answer questions either alone or in teams in a quiz, commonly referred to as a mind sport. The faculty typically runs a variety of quizzes at the graduate level to foster knowledge among the students. But these days, educational institutions use a variety of strategies to administer quizzes to their students. In light of this, the Department of Commerce chose to use Plickers to administer an online quiz programme to its students. By doing so, the Department can help its students comprehend how to use online resources.

Plickers is a technical application that allows teachers to poll or quiz their courses online without requiring that each student have a personal device. A laptop or tablet, a smartphone with a camera, and Wi-Fi are all that the teacher needs in the classroom. Each student will be given a unique Plickers card, which can be printed off for free on the website, provided a teacher registers for Plickers at plickers.com and enters the names of their students into the programme. This is explained in the video to the left. The letters 'A' 'B' 'C' and 'D' are printed on one side of each card.

To raise awareness among the students about the technical tools they will need in the future, the Department of Commerce, through its Entrepreneurial Development Cell (one of the Student-Centric Best Practises), held a commerce quiz using Plickers.

Abstract of the activity: In view of the above the Department of Commerce arranged a Commerce Quiz with plickers on 09-10-2020. Dr. D. Ch. Appa Rao, Lecturer in Commerce designed and conducted the entire programme . The programme will be executed in the following manner. The Faculty sign in to Plickers.com and prepare 3 sets of questions in your Lap-top.

In the left side top page Faculty enter the names of the students. The teacher can use their computer or tablet to present a pre-made question stack for their students whenever they wish to ask a question or a series of questions. The students only need to flip their cards so that the letter they selected is at the top in order to respond to the question. The teacher can then scan the room with their smartphone's camera to record and capture each student's response.

Conclusion : This programme teaches students how to set up and use technology and raises their knowledge of new technology that may be beneficial to them. The students engaged in the programme with great interest and enthusiasm. They stated that they will find the programme to be quite helpful
