Today NSS unit of V.S.R. Govt. Degree and P.G College , Movva . Conducted Awareness Program on Road Safety with help of kuchipudi SI spoke about Most of us use the roads every day, as drivers, passengers, cyclists and pedestrians, and for many people driving is the main part of their job. It is essential therefore, to ensure that, as far as possible, we can all use the roads safely. The human and economic damage caused by road crashes is largely preventable. Lack of knowledge and awareness regarding road traffic rules and regulations, violation of traffic rules, flaws in road design and engineering, along with driver behavior, can be overcome with concerted effort. As the road user error is believed to be a factor about 82.4% of all road accidents, improving road user behavior should always be priority. With the view to educate and influence the general public, road safety awareness campaigns are needed.
